LINIMENT

SHOULD BE KEPT READY.

Messrs. Douglas Bros. & Co., Napanee.

Dear Sirs, - Having the pleasure to

Dear Sirs,—Having had wonderful success with your Liniment with my stock, I feel it my duty to write you in behalf of same. Our cattle were troubled a great deal with caked bags, they were badly caked we thought they would lose the use of them, but as usual your Douglas' Egyptian Liniment was applied

twice, and in twenty-four hours we could
milk as well as ever. When anything in
our home or stables go wrong your Lis-
terment is called for at once, it never has
failed. Hoping this letter may assist you
in putting forward the greatest Liniment
on earth.

ROBERT HARKNESS,
Sheffield, Ont.
AS THE SUN WENT DOWN.
Two soldiers lay on the battlefield
At night when the sun went down,

One held a lock of thin gray hair
And one held a lock of brown.

One thought of his sweetheart back at home
Happy and young and gay,
And one of his mother left alone,
Feeble and old and gray.

Each in the thought that a woman cared,
Murmured a prayer to God,
Lifting his gaze to the blue above
There on the battle sod.

Each, in the joy of a woman's love,
Smiled through the pain of death,
Murmured the sound of a woman's name.

Though with his parting breath,
Fale grew the dying lips of each,
There, as the sun went down,
One kissed a lock of thin gray hair,
And one kissed a lock of brown.

A NOTABLE EVENT.

The Famine Fund sent to the Montreal Star has turned fifty thousand dollars representing subscriptions from upwards of two hundred thousand persons, or hundred thousand school children, and nearly one hundred thousand churches.

We do not remember ever to have seen extraordinary a subscription anywhere. For many a year to come the remarkable spontaneity with which this subscription was supported, its almost universal character

and the right good will with which the subscriptions were bestowed for the cause will be looked back to by all Canadians with genuine pride.

We do not believe that any person ever imagined that it was possible for any one agency to raise so large a sum and to enlist the sympathies of such an enormous number of people as has been done by the *Star*.

THE DIAMOND JUBILEE.

The peroration of Mr. Laurier's speech in the debate on the reply to the Governor General's address, is acknowledged to be one of the most eloquent efforts ever listened to in parliament. Referring to the

any of the reign of Her Majesty. Through-
out the broad Empire all the tribes, all the
races and all the nations, which acknowl-
edge her supreme authority, will vie with
each other to do her honor. All the tribes
all the races, all the nations, divided though

they may be in color, in religion, education, in blood, still will be unanimous in their endeavors, in their efforts, in emulation among themselves, to testify their devotion to her person. Monuments will be erected in commemoration of the event. The art will be called on to give expression to this feeling in marble and in bronze, to the low-

devotion of many millions, to one who is a
wise, and whose reign has been so beneficent.
But there are monuments which speak more
loudly and more eloquently than even those
of sculptured bronze or carved marble.
There are monuments which will be more
fitting for this occasion than sculpture.

Mrs. James Grant, of Belleville, will assist at the concert in the Deseronto opera house on April 20th. The following extract appeared after this lady's appearance at the

Grant's clear and beautiful soprano voice was never heard to greater advantage, her French songs showing especially the triumph of musical culture and vocal capcity, and her 'Robin Adair' showing how tenderness and feeling are the handmaid of perfect art."

There is much need of the extension of the boardwalk on Stanley avenue to the church of England parsonage. Under present circumstances visitors to the parsonage have to climb the steep ascent from Dundas street, and the extension on Dundas street would obviate this difficulty.

A postal card that required fifteen years to travel ninety-nine miles breaks the record for slow postal delivery. It was mailed in Leicester, England, in June, 1881, and has just been received in London. The address was plainly written on the card, and no one knows where it has been all this time.

As befits warlike times the English war office will test next week the deadliest known man slayer, being a machine gun capable of discharging 1,000 shots in 123 seconds. On a brief sharp attack the gun fired eleven shots a second. A steel collar keeps the barrel cool. The fire never warms a soldier's glove.

A. Vandusen, of Green Point, has very kindly placed on our desk a large jar of maple syrup, of which he is acknowledged to be one of the best makers in the bay district. Mr. Vandusen pays every attention to his maple syrup, and is anxious to secure as pure a product as possible.

For the large number of patrons he enjoys in Deseronto, Pictou, etc.

Dr. J. P. Falkingham, dental surgeon, has decided to open an office in Deseronto. He has made an excellent course at the Toronto college of dentistry and comes highly recommended as a skillful dentist. He will be ready to commence practice early next week. Tickets will be issued to pupils of the schools, at a fare of 50c, good from March 27th to April 17th, good to return up to April 27th.

Another Proof.

The merits of terra cotta fire proofing were manifested at the recent fire in the Colp block. Had the ordinary lath and plaster been used in its construction the structure would have been a mass of flames in a few minutes. The plaster was on the terra cotta lining and thus prevented the flames from running up the side walls. Such lesson is most convincing.

Local Legal.

The case of Dart vs. McCullough, in which much local interest has been manifested, came up for trial at the Belleville assizes this week and came to a close on Wednesday evening. The case was in many respects a peculiar one, involving, as it did, several new points of law.

Justice Street judge, Mr. Justice, said he said he would reserve decision as to whether the action could lie at all, on the ground that an insolvent person could not sue in tort, and that the plaintiff had no property in the estate in regard to his dealing with the estate. MINING NOTES.

The *Marmora Herald* says "Thomas Lawrence, of the 3rd concession of Marmora, laid a sample of gold-bearing quartz which he had taken from a ledge on his farm."

Thos. Warren, Sr. showed a fine sample of gold-bearing quartz on Wednesday. The ore appeared to be quite rich and Mr. Warren purposed having it assayed. He would say exactly where it was found, but says that the vein is 14 miles from a railroad with a good road leading directly to it over which a team of horses could easily draw a load of 15000 lbs. On the fifth concession of Marmora, Joe. McElroy has struck a pit to the depth of about four feet from the surface has taken some good shows. At this place there is a junction of three veins and a little west of the junction another vein connects with the main vein, which is shown in the rock. A number of specimens of the ore have been placed on our table for inspection, which we will be pleased to show together with samples of other minerals.

George Dawson, ex-M.P., Plevna, predicts mineral development in Addington and says that the ore is of the best quality.

A general development gold mining company has been formed in Kingston. It is composed of leading business men of that city.

A valuable gold quartz lead is reported as having been discovered on lots 9 and 10 in the 14th concession of Marmora. The lead is very rich so rich that the parties interested are taking care that no one interferes with it.

Spring is being awaited with much anxiety by a large number of people, and this prospecting will commence in earnest. The district is a large one and will worth careful inspection.

Last fall a like of the Wawa property was offered to an Ontario development company for \$300,000, but the advice of an expert, it was refused, and the other day C. MacKell of Dunlop sold the same property for \$70,000.

Rainy Lake Journal, commenting on this, says a tenderfoot has better judgment about the value of a gold property than alleged experts. In fact, the history of mining goes to show that nearly all the great mines have been in their early stages condemned by experts.

Instantly, experts said and you never would find gold in limestone, but the finds at Merour, in Montana, and in the Black Hills in that formation show that the old rule did not know what it was talking about. In other words, gold is where you find it, and all the "experts" testimony in the world cannot controvert this plain proposition.

Gold finds continue to be made around Marmora. Thomas Lawrence of the south half of lot 31, on the 3rd concession of Marmora Township, has discovered a vein on his farm, and Thomas Warren, Sr., has come across a good lead in another direction.

The Marmora Township, has discovered a vein on his farm, and Thomas Warren, Sr., has come across a good lead in another direction.

Coy is striking a pit in the east half of the west half of lot 20 in the 6th concession of Marmora with good results so far.

A number of friends of McKinley's Cabinet has become interested in a Lake of the Woods property. Gen. Alger, formerly Governor of Michigan, but now the United States Secretary of War, has with Mr. Farwell, of Detroit, purchased a two-thirds interest in the Pine Portage mine, situated in the 14th concession of Marmora Township, Ontario. This mine was worked before, but has now been abandoned for some time, but the new owners are confident that it will be a bonanza.

There is an old mine on the south half of lot 20 in the 6th concession of Marmora with good results so far.

The latest estimates place Alaska's probable gold output for 1897 at \$10,000,000. The output last year was \$9,000,000. When Mr. Seward made that purchase it is quite possible he didn't suspect he was striking a gold mine.

The second cleaning up took place last week at the Canada Gold Filde Company's works at Deloro. The exact output cannot be learned, but it was highly satisfactory.

The Canada Gold Filde Company are advertising 1,000 cords of wood to be delivered at their reduction works at Deloro.

Superintendent McNaughton, of the Bannockburn mine, reported on Saturday that the results of last week's work in it were such that his expression of opinion, that it was the richest gold mine in the district, was systematically and scientifically the district may yet become one of the most important of the kind in this part of the country.

The rich placer mines of the Yukon Valley on the Canadian side of the boundary are said to be the richest in the world. Even with rule apparatus mines are making from \$10 to \$30 per day, and some have made as high as \$1,200 to \$3,000 per day. There is a great rush in that direction this spring.

Deseronto capitalists who hold stock in several Roseland properties have been encouraged by recent reports and the value of their stock certificate with even a more favorable price than formerly.

The Channel deal is closed, the British Canada Mining Company has recovered \$200,000, purchasing fourteen claims on Channel Island, near Vancouver, for a hundred and twenty-five thousand dollars.

These are the first seaboard mines sold. The Montana ore purchasing company has brought suit against the Boston and Maine Mining Company to recover \$22,322,000 for the value of ore alleged to have been extracted by the said company from the veins of the Roseland mine in that part of 1891. This is the biggest suit ever brought in the state of Massachusetts.

C. H. Marsh, representing E. L. Sawyer & Co., mining brokers, Toronto was in Deseronto on Wednesday, pushing the claims of the recently formed Bannockburn Gold Mine Development Company. He showed some rich specimens of ore recently obtained from the Bannockburn mine which he attributes to a "valuable prospect."

Leo Babcock, Wilton, has received a cheque for \$5,000, insurance of his late wife, from the Chosen Farmers.

Richard Arnold, a young man of Morrisburg, stepped on a nail last week and lost his life and he died in Montreal hospital.

A telephone line is being constructed through the town of Deseronto, from Plainfield, Roslin and Thomsburg.

Rev. and Mrs. Jolliffe, Plover, have left for Clinton Springs, N. Y., where Mr. Jolliffe is on a tour of inspection.

NEWS OF THE DAY.

Emperor Francis Joseph has released the Baden ministry that resigned the other day.

The Portuguese troops have been defeated in Guinea by the natives after a fight lasting eight hours.

The Granite women mill, St. Hyacinthe, Que., were badly damaged by fire Monday morning. The loss is heavy.

Eight Chalmers are under arrest in Malabar, N. Y., who are alleged to have been smuggling opium across the border.

The Montreal chamber de commerce has decided to petition the government to establish a Canadian mint, so that Canada can make its own coin.

It is announced that J. W. Stocks has taken up Sandoz's challenge to race any rider in the world for ten miles and upwards for \$5,000 or more.

George Orton, Toronto, won the American five mile cross country championship on Saturday at Morris Park, N. Y., beating a large field of starters.

Monsieur Merry de Val has called a meeting of the "Coman Catholic archbishops of the dominion to be held in Montreal next Thursday." Archbishop Cleary has been sent as invitator.

Preparations against eventualities in the Transval are being steadily pushed forward by British soldiers and a general familiar with African fighting has been selected to command the English troops.

It is estimated that the losses sustained by Chesham cattle during the recent storm will amount from five to twenty 8 per cent. The snow lies one and one half feet deep in Chesham. Much anxiety is felt for many persons who have it cut into circular form about one inch wider than the diameter of the can. Make a number of holes in the snow, making a continuous raised, and set it in the can, thus making a raised false bottom. Coil up the chain on the side of the can. Then let it stand quietly for several minutes till the loosened grease and grit have settled to the bottom, when you can lift your chain perfectly clean of all dirt. It is a very simple and cheap plan. Pick the edge of the can to form a spout, so you may if economically minded, pour off the clear benzine to be used again.

CHURCH OF THE REDEEMER. Rev. W. S. McTavish, B. D., preached impressive sermon on both services last Sunday. At the morning service he resumed his course of sermons on the Lord's prayer. Services next Sunday at the usual hours. The monthly meeting of the Ladies Missionary Society will be held next Wednesday at 4:15 p.m.

The annual meeting of the Mission Band meets this evening at 7:15; Junior Saturday at 3 p.m.

The Sunday school concert, which promises to be well worthy of patronage, will be held on Thursday, April 22nd, and not on the 20th as first announced.

CURBSTONE FAKERS.

THE SIDEWALK MERCHANTS NOW
FOUND IN ALL LARGE CITIES.

Transactions Are Small, but There Seem
to Be Unlimited Patience and Plenty of
Endurance. Sample Group on One of
the Principal Streets of St. Louis.

Have you ever observed the movements
of the energetic street fakir?
But of course you have, for he is omni-
present. You can't "lose" him. He has
come from some street vendor or sidewalk mer-
chant, but the only name that "goes" with
the buoyant and plumping puff of the street
fakir, so it will be to go at that.

He is scattered up and down Broadway
even as the milky way is strewn
with the stars of the night. Like the ghost
of the late Colonel Danquie, he will not
stand. He stands like a magnet to draw
down the pockets of pedestrians. He
delights in the tempting display of his
wares, but he has no time for incoherent
blather or platitudinous platitudes. He is
earnest. Whether he is selling pocket
combs or collar buttons or advertising
false whiskers, it is all the same to him.
There is no place of distinction between
the public, and he will come near giving
you nothing for something as any body
would strike in a week's journey.

Little children love him and older folks
enjoy his windy declamations concerning
the value of his wares. He is not a bad
fellow, after all. He may sell you a real
"diamond" for 10 cents, but he will
sell you a lot of cheap collar buttons, but that
is what he is there for. He makes no false
claims concerning the value of his wares,
and you get what you pay for. What is
your money's worth. So what more do you
want? The articles he has for sale may be
ridiculously cheap, as a general rule, but
they are the "real thing."

There is not a block on Broadway from
Franklin avenue to Market street on which
the street fakir has not been seen at all
hours of the day and until late at night.
But the place he is to be found at the
plentiful display is in the heart of the city,
and the alley at the north, on the
west side of Broadway. He is particularly
prominent in the afternoon.

On this particular block a dago banana
peddler occupies the position of honor.
He has jumped a claim on the corner of
Broadway and for some time he has been
selling his wares. He is a man of
which point of vantage he boldly pro-
claims, "without fear of successful con-
tradiction," as they say in amateur debating
societies, that he is selling bananas "for
10¢." He stands with his hands in his
coat pockets and moves restlessly up and
down one end of the block. To the other
end, eyeing the public surreptitiously and
sneering at the public in the most
sneering call out in the city.

"Courteous for 10¢."

Nobody knows where he does it, but he
makes more money out of that business
than an Irishman could out of a saloon
and grocery store.

Next to the banana peddler is an old
blind woman, grinding away for dear life
on a wheeled hand organ. She plays "Poor
Nellie Gray" and "The Swan Song," and
various other sentimental and
religious airs, and she exhausts her
repertory about 47 times a day. It is a fact
that there have been organs of this kind
with misleading notes, and this has
gained the music a mournful, despairing
note, making it no gloomy on the
bad day that you feel like giving the
owner of the infernal machine your week's
salary.

A girl trotted individual, attired in a
waiver or baker's white suit, came cor-
porating a saloon on Broadway Friday
afternoon. Nobody seemed to know where
he came from. He appeared on the scene
suddenly, opened up a small table with
legs like a camp stool, and in less than a
minute was crying out in the city.

"Oh, yes! You tell your friends to tell
their friends to tell the news, to tell
their friends, that Tuffy Sam, from Kala-
man, the maker of the tuffy and the
poor man's friend, is here today!"
Every other fakir on the block looked
up at this declaration. The blind woman
gave up her music, and the girl, giving
as far as "Rate in the Army" and "The
Banana peddler scowled. A crowd
commenced to gather, and the fakir took
up the business of the long, straggly, sil-
ken hair, and gurgled in
melting tones:

"Just look at that! Mele in your mouth
like ice cream! Taste it and try it. You
buy it! Children cry for it! Old maids
sigh for it! Sweeter than honey! Try
me, lady!"

Thus he proceeded with an endless chain
of persuasive remarks, and in a few min-
utes he had disposed of his stock and dis-
appeared.

The gentleman with the rusty whiskers,
standing next to him, was much put out
by this declaration. He had been inter-
rupted in his work of showing the ladies how
to mend their hair with soldier which he
was selling at underground prices.

Next to him was a woman who might
be called general merchandise, for they keep
everything from cheap stationery up to
silk and jewelry, and they sell it at such
low prices that you see fit to chase them.
In trade are shoe laces. They have shoes
laces till you can't reach back, black and
leather—and they make a surprising num-
ber of sales, for the articles are genuine
and men buy them on the spur of the mo-
ment, because they need them and can't
think of them when passing a shoe store.

The inevitable fakir who is disposing of
collar buttons at the rate of 12 for 6
cents is there, and the woman who dis-
tributes who stop to examine his wares is
surprising. This is a genuine bargain in
the eyes of some men, for some men will
insist on wearing bone collar buttons.

The busy peddler on Broadway rushes
by with a plan to get an array, but
hundreds of men and women of the
classes who are hunting bargains, pause
for his cry of the fakir, many of whom
are allured by the low prices, and to
examine their wares and probably
buy some more purchases.

Thus they succeed in making an honest
living, often in the face of conquered
pride, while less industrious citizens are
begging on the streets—St. Louis Post-
Dispatch.

Unwarranted.
"Mamma, why should I landlike object
to children?"
"Mother—I'm sure I don't know. But
go and see what baby is crying about, and
tell Johnny to stop throwing things at
people in the street, and make George and
Kate cease fighting, and tell Dick that
he's taking it away from him—London Tit bit.

The present military activity on the Nile
much disturbs the crocodiles. Their num-
ber has already been reduced by the hostile
fire of the British army, and now the
reptiles are retreating still further up
stream.

SUFFERING WOMEN

Troubled with Weakness
Peculiar to their Sex.

HOW THEY MAY BE CURED.

Dodd's Kidney Pills Act upon the Female
Organs as well as upon the Kidneys.
Many a Woman suffers needlessly.

Women suffer more than men. From the
time a girl-child is born, she has more
trouble than men. She is a dream of
dreams. We look upon women as weak
and fragile, but considering what they en-
dure they are stronger by far.

Women suffer many times more than they
need to. Partly because they do not know
what ails them at first; then because they
there to please a doctor. Later, because
they have to be a continual source of expense
to their husbands.

"Female Weakness" are what we term
the diseases peculiar to the female sex. They
are often confounded with female Kidney
trouble, and Kidney trouble is often mis-
taken for other troubles. All these delicate
organs are closely connected. What affects
one affects the others.

What once one, cures the others, too.
DODD'S KIDNEY PILLS which are a regu-
lar and control the female organs and to re-
move their difficulties. This is worth while
for every woman to remember.

Dr. J. C. Dodd, Chambers P. O.,
says: "My wife was a sufferer from
weakness peculiar to her sex, combined with
kidney trouble. I tried all sorts of medi-
cine, but it was of no use. I was com-
pelled to buy Dodd's Kidney Pills."
Mrs. Emily A. Dodd, Waltham, Ont.,
says: "For a long time I have suffered from
a complaint of Kidney Trouble and Pe-
male Disease, and am glad to say have no
pain or ache since using Dodd's Kidney
Pills."

DODD'S KIDNEY PILLS, cure Kidney
Disease and Female Weakness. Try them.
They are on sale at all druggists.
Price 10 cents per box, 6 boxes for \$2.50.

ALL FOR RAILWAYS.

Toronto, April 10.—The Ontario cabinet
considered long and seriously the railway
policy of the administration. It was finally
decided that nothing more should be offered
to the Ontario & Rainy River railway than
has been offered. Over seventy miles, and
the other side of the lake, will be
baunted, and that to the extent of \$3,000 a
mile, making in all \$210,000.

The Montreal & Ottawa railway, to aid
in the construction of the Ottawa & Lake
Superior railway, is granted \$300,000, and
also a subsidy of \$100,000. The
Quebec & St. Lawrence railway, to aid in
the construction of the Quebec & St. Lawrence
railway company in 1892, to the Montreal
& North Shore railway a bonus of not more
than \$1,000 a mile for this line will be
given. To the Toronto & Lake Erie &
Pacific railway a subsidy of \$6,250 will be
given. The Ottawa & Parry Sound rail-
way a bonus of \$200 a mile for two miles,
amounting to \$20,000, will be granted. The
total grant to railways is \$469,524.

Dressing Handsomely and
Well At A Small Cost.

A lady friend, a user of Diamond Dyes,
writes as follows:

"With Diamond Dyes I changed my hus-
band's faded gray suit to a rich dark brown
shade, and a blue one was made black,
and a green one was made black. I have
become of their color, and I wonder
where all the new ones came from."
"My experience proves that any woman
who uses the Diamond Dyes can not only
change the color of her clothes, but she can
change the color of her hair, and she can
change the color of her skin. Diamond
Dyes are indeed the true preservatives of
hard times."

DICTATED HER TERMS

A curious tale is told of how Barney
Barnett, the diamond dealer, came to be
married. The foundation stone of his fortune
was a prudent purchase of diamonds, which
he deposited with a certain barmid in Kim-
berley. After a time he heard of the
diamonds, saying that he was off for Europe
and that they would be married when he re-
turned. He replied, and those were the only
words he could get about the diamonds.
While he was away, the barmid, who was
Barney's friend, and by the way, the barmid
was a bright young lady in the present Mrs.
Barney, was married to a certain barmid.

DR. CHASE CURES BACKACHE.

Kidney trouble generally begins with a
single pain in the back, and in time de-
velops into Bright's Disease. People
suffering with stricture, impediment, or
water, or a frequent desire to urinate
at night, and who feel the weight of the
Liver Pills a blessing. Read the wonderful
cure in another column. One pill is a dose,
and if taken every night will positively
cure kidney trouble.

THE PRIMARY TEACHER.

An exchange says: Little year has
recently when you pass the teacher of the
primary school. She takes the battling
little child, and she takes the little child
as an unmanageable little child, and she
may motherly honestly admit that the
little child is a little child. This lady

It is remembered that the mother died three last winter. The subject of this notice was only ill for a week. She was devoted to her husband and her three children who developed into pneumonia and death soon followed. Her husband died eight years ago. She died on Saturday 10th, the funeral services being conducted at the church in Coldwater by Rev. Mr. G. A. Parham. The deceased was a native of Ontario and made connections to reach Deseronto. She came on to Deseronto and leaves to-day for Malton.

Disastrous Runaway.

A disastrous runaway occurred on the Boundary road on Wednesday morning of this week when the mixed G. T. R. train was derailed. Owing to a defective axle on the engine, the train was derailed and a milk wagon being logging to W. M. Semich took fright and became unmanageable shortly after.

They dashed against the side of the railway crossing the train was going by but they never halted or stopped. The train was going at a good rate of speed. The animals were hurled to one side with great force. One horse was instantly killed, his legs being torn off and other horrid injuries received. The other horses were badly injured. One horse was killed and badly injured. One of the horses was a valuable animal. It was the second trip this season to the cheese factory.

Left for Picton.

On Wednesday afternoon H. A. Dean, who was recently promoted to the position of accountant of the Bank of Montreal, left for Picton to enter upon the duties of his new position. Mr. Dean came to Deseronto when he was promoted to the position of accountant in 1893 to fill the position of accountant-teller. In this position he proved very popular with the business men of the town and at the same time gained the approval of Messrs. Rogers and Taylor, the managers of the bank. He also gained the good will of the people of the town. He was a native of this town and was a man of high character and was very popular with the people of the town. The Lordship of the Bishop of Ottawa will hold confirmation at the parish church on Monday morning 20th inst. at eleven o'clock.

Purchased.

Reeve Dryden has purchased from Mrs. F. W. Powell her house on Centre street, between the old school and the new school. Dryden gave \$1,300 for the property. Mr. Thomas Sturges for the property. He will make his residence there after the 1st of May.

Deseronto Liberal Conservatives.

A meeting of the Liberal-Conservative Association of Deseronto will be held in the school room at 7:30 o'clock on the evening of Friday, April 16th inst. Liberal-Conservatives are invited to be present on the occasion. W. F. Hudson and other speakers will address the meeting.

Canadian Cheese.

Mr. Frank Brenton, of Belleville, who has just returned from England, reports the outcome of his trip to Canada. He says that the cheese trade in all out of the country and there is more than enough in the English houses to carry them over till this season's make begins to arrive. He is confident the coming season will be a good one for our cheese in England.

Concert and Entertainment.

A very pleasant event is anticipated on the occasion of the concert and entertainment to be held on the evening of Thursday, April 22nd inst. in Union hall. The entertainment is under the auspices of the Presbyterian Sunday school. There will be literary choruses by the school, solos and readings by several leading vocalists, and readings, recitations and addresses. A liberal patronage is solicited. Tickets, only 15 cents.

Were Given Three Cheers.

At the Grand Orange Lodge meeting in Picton two weeks or so ago, when it was found out that six sons of H. A. McTavish, of Belleville, in Union hall, were present, they were asked to stand up. It was then moved by Major Sam. Hughes, M. P. for Ontario, that three cheers be given them, which was responded to in a right royal manner, all the brothers remaining on their feet.

The Red Bird.

G. E. Snider has again been appointed Deseronto agent for the sale of the famous Red Bird bicycle. This wheel is too well known to require much description. It is the best of its kind in the world. It was last year Mr. Snider sold thirty-two of these bicycles in Deseronto and all his patrons greatly appreciated them as fast and safe, and a fact which is a flattering testimonial. He has several sample wheels in his shop which are very much admired.

Ancient Coins.

H. A. Dean, of the Bank of Montreal, is the possessor of a splendid collection of ancient coins. He has secured three bronze specimens the other day. One was struck in the reign of Ptolemy Soter, 338 B.C. The second was struck in the reign of Augustus, and the third was issued in the reign of the Roman Emperor Vespasian, a specimen of the famous "Judean Cap" coin, evidently struck in Jerusalem. The fact that Vespasian had conquered Judaea and led its people captive, figures on one side representing a Roman soldier and a Jewish captive. He also showed us a specimen of the curious "Pai" or "fork" coin of China used a thousand years before the Christian era.

Bay of Quinte Railway.

There has been an increase of the passenger traffic on the Bay of Quinte railway during the past few weeks. The recent establishment of special rates on market days at Kingston and Napawan has met with great favor among the agricultural population and the result has been a greatly increased traffic.

The conductors of the different trains by their uniform courtesy and attention to the passengers have greatly increased the popularity of this line. Large quantities of material continue to be brought into Deseronto, and the different stations along the line are becoming more and more important centers of freight daily. It is said that no line in Ontario is so considerate of the different classes of passengers as the Bay of Quinte railway.

This will be one half per cent less than what depositors are allowed by the Bank of Montreal, Farmers and others in this district who wish to get the highest rate of interest on deposits will be glad to hear of the new rate.

Death of Mrs. Edward Gracy.

Mrs. Edward Gracy died at the residence of her brother, Mr. Edward Gracy, on Thursday, April 8th, aged fifty-two years. Deceased, who was the daughter of William Parham, was married to Mr. Edward Gracy last September with her father and mother who had decided to make their home with their son John at Deseronto. It is remembered that the mother died three last winter. The subject of this notice was only ill for a week. She was devoted to her husband and her three children who developed into pneumonia and death soon followed. Her husband died eight years ago. She died on Saturday 10th, the funeral services being conducted at the church in Coldwater by Rev. Mr. G. A. Parham. The deceased was a native of Ontario and made connections to reach Deseronto. She came on to Deseronto and leaves to-day for Malton.

ALMOST A MIRACLE.

OTTAWA, Sept. 9th, 1896.
To the Phenolene Medicine Co., Ltd.,
Ottawa.

Gentlemen—I hardly know how best to express my appreciation of your valuable rheumatic remedy, Phenolene. My son Gordon, who is 9 years old, has been a sufferer from inflammatory rheumatism for the past two years, was so bad at times that he had to be carried about on a mat; was attended by two city doctors apparently with the slightest benefit; some ten days at Caledon Springs, came home with no marked improvement; took three bottles of a Lincolneville remedy now being extensively advertised which did not relieve him in the least. I was beginning to give up all hope of his recovery, when by chance I mentioned the case to a friend who strongly advised me to give Phenolene a trial.

I did so, with the result that when my boy had taken only half a bottle he was able to get on his bicycle and ride like any other boy around the block.

I certainly feel that I cannot say too much in praise of your medicine, and shall do so I can make known its value to others.

ALIENS EXCLUDED

TO PROHIBIT AMERICANS TAKING
UP MINING CLAIMS

In British Columbia—Report of a Com-
mittee of the Legislature—Mining Laws
Revoluntized.

Victoria, B.C., April 13.—That British Columbia have forgotten the lesson which the Canadians in the famous labor clause of the Corbett amendment have been educating in a fitting manner by the action taken during the past few days in the Mining Committee of the Provincial Legislature. This important body has for several weeks had under consideration an amendment in the mining law of the province.

Some time ago have been pointing in upon them from all quarters and after affording the majority of the committee have signed the report recommending the amendment, which may be interpreted as especially referring to American citizens, shall be prohibited from taking up mining claims in this province.

Heretofore no restrictions have been placed on American enterprise, and even with the aid of the Corbett amendment before them, the committee would go the length of forbidding the ownership of claims by Americans.

Another important amendment adopted by the committee provides that persons making an "adverse" must prove that the first location has been improperly made, the original locator having, however, been required to establish his position.

Still a third section of the majority report provides that anyone obtaining a Crown grant to mineral property is to be empowered to purchase from the Government all surface rights to the property. These changes practically revolutionize the mining law of the country, and will provoke the heated debate of the session when laid before the House of Commons.

FOR BRITISH SUBJECTS.

Vancouver, B.C., April 13.—At last night's meeting of the City Council a resolution that only British subjects be employed in the city's public works, passed with only one dissenting voice. All the aldermen spoke on the subject, the majority stating that they favored the resolution, which they felt was introduced in the United States. The motion was loudly applauded by the audience.

STERNAMAN CASE.

The Trial May Commence on the May 1st.

Buffalo, N.Y., April 13.—Correspondence has been exchanged between Mr. Wallace Thayer, of this city, counsel for the Ontario Mining Association, and Mr. J. R. Cartwright, Deputy Attorney-General at Toronto, in which the proposition to secure an independent committee to investigate the case of the Ontario Mining Association has been given. Mr. Thayer wrote again to Mr. Cartwright this morning, stating that the Ontario Mining Association must receive a positive assurance of trial and final determination of the case at the May Assizes, and that he must ask, in view of the financial inability of the Sternaman to hire other counsel, to be allowed to personally defend Mrs. Sternaman, obtaining an order to that effect from the court.

If these terms are at once arranged, Mrs. Sternaman will voluntarily return to Canada, Ont., where the husband, Attorney Charles J. Thompson, said yesterday that the extradition was certain, but that there was a piece of evidence missing that might stand in the way of the extradition of the woman. She is at present in the Erie County jail.

Mr. Cartwright, the Deputy Attorney-General, said last night, in speaking of the demands of the Ontario Mining Association, that all the Crown could promise was that the case would be put on the docket if it could be accomplished. The letter referred to in the dispatch had not yet reached him.

Interesting Insurance Suit.

Berlin, Ont., April 11.—Dr. Minchin, E. Add, residing at the residence of Dr. Minchin, of Berlin, have been subpoenaed to go to Guelph to-morrow to give evidence in an action brought by Mrs. Patterson, of Kitchener, to recover a sum of insurance money on a policy held by her late husband in the Select Knights' society. The suit will be of considerable interest in Western Ontario. Mr. Patterson, whose widow is bringing the suit, came to Berlin one day in the autumn of 1895. He acted strangely about town, and was subsequently found dead in his room in the Grand Central hotel, while near the bed on which his body lay, a deadly poison which had been purchased that morning at Hoffman's drug store. The coroner's jury brought in a verdict of natural death, but the Select Knights believe the man committed suicide, and refuse to pay the life insurance, hence the suit. Patterson was a well-known grain and stock buyer, well-to-do as far as this world's goods go, and his relatives from the very first accused the theory of suicide, notwithstanding the suspicious circumstances surrounding his death.

What the Girl.

Scranton, Pa., April 13.—Anna Dickinson, one time lecturer and actress, has recovered a verdict of six and a quarter cents from George R. Thompson, John Eggleston, John B. Heyman, Gideon Underwood, and Henry Dryden, of Pittsburg, on the basis of claim that they had brought about her death by inducing her to take a ten-day trial of the drug, and the case was continued. Her claim was for \$500,000 damages.

Liability of Government.

London, April 13.—Letters and cables from Canada stating that the coalition of Mr. Geo. A. Kirkpatrick, Lieutenant-Governor of Ontario, is dangerous, in view of the fact that he is a member of the Ontario Mining Association. Though he has suffered a slight relaxation in his departure from Brighton, he has since improved, and it is his present intention of returning home by the White Star liner Majestic.

Constitutional Questions.

Brantford, April 12.—At the Police Court this morning the case of the common-law suit of J. J. Smith vs. J. J. Smith was heard. The case was continued to 23 months in the Central Prison, and J. J. Smith to three years in Kingston Penitentiary. The charges against the younger Smith and J. J. Smith (colored) will be heard Wednesday.

WINDS & WAVES.

ONCE sent to the Penitentiary for 1897
that the rollers to make their
residence in Windsor.

Windsor, Ont., April 12.—Peter O'Neill, alias Kelly, the man who held a revolver to the throat of a man at the point of a knife, at the night of March 22 last, and who was captured a few minutes after the commission of the crime, was placed on trial for murder at the Windsor Assizes this morning. The case against the prisoner was a clear one, and a conviction was easily secured. After Mr. Bertram had positively identified O'Neill as the robber, the judge sentenced him to eight years in Kingston Penitentiary. O'Neill, or Kelly, was liberated from a Michigan prison on the same day he was arrested here. He had just finished a term of three years for larceny.

Benjamin J. O'Neill, a young Essex man who has been working in a Detroit dry goods store for some time, was upbraided a few days ago by one of the Inspector Mettigan's minions, and notified that he was being sent to the United States alien law. He was given half an hour to get out of Uncle Sam's domain, and he obeyed, but he is very wrathful over what he terms his summary treatment.

For several days past it has been apparent that the Hamilton owners of Flying Rollers from Detroit were making preparations to move. Their prospective destination was a matter of considerable speculation until a day or two ago, when it was found that a house had been purchased in this city, and will be the headquarters of the Flying Roll in Canada. There are now four or five women in the house, and more are expected by the end of the week. The men of the colony only put an appearance once or twice during the week, and they wear the long hair and garments of the orthodox rollers. They will not be molested unless there is a general demonstration of the moral code, which it has frequently been asserted the set are none too particular about.

MANITOBA MATTERS.

Conservatives Will Not Put a Candidate in the Field to Oppose Mr. Jameson.

Winnipeg, April 13.—At a general meeting of the Conservatives on Saturday night it was decided not to place a candidate in the field to oppose Mr. Jameson, the Liberal member for the constituency. The Trades and Labor and Temperance organizations held a meeting on Saturday night, and appointed a committee to secure an independent candidate to oppose Mr. Jameson. The committee will report to a public meeting in the Bijou Opera House on Tuesday night, and a candidate will, probably be nominated. It is considered that with the joint endorsement of labor and temperance the nominee can defeat Mr. Jameson.

A meeting of ex-Canadian volunteers was held here on Saturday afternoon. The petition presented by the Veterans Association was unanimously accepted. It will be brought to the attention of the Toronto association that the petitioners, prepared to contain no mention of the service of volunteers, called out for active service in Manitoba at the time of the Fenian raid in 1871.

Mr. W. J. Montague, an honorary graduate of Toronto University, who came to Manitoba years ago, dropped dead while eating breakfast in the Royal hotel here this morning. He had been teaching school in a country town, and came to the city recently. On Saturday night he was attacked with a hemorrhage.

BELLELEVILLE BRIEFS.

The Death Record—Price for Pulpit Oratory—Capture of a Thief.

Belleville, April 12.—The oldest resident of the city died on Saturday night. Miss Johanna O'Donnell, aged 96 years. Mr. Charles McCreedy has been awarded the prize for pulpit oratory in Albert College, after a close contest.

For some time past money had been raised from the sale of Wm. Peterson and Son's wholesale confectionery, adjoining the police station, and for several nights a watch was kept, but in vain. On Saturday night, however, Policemen Hayes kept watch, and about 3 a. m. Sunday the burglar entered the place and was seized by Hayes, who captured him, and took him to the cells. He proved to be Thomas Parsons, a painter, who was born in Belleville, and has lived here all his life. Mr. Peterson and Hayes at once went to Parsons' house, and in the cellar found a large quantity of goods stolen from Peterson and Son, which were exchanged for the goods which have since been identified by local dealers as their property. The prisoner, who had previously been convicted for theft, was brought up in the Police Court, and remanded till Wednesday.

CHATHAM NEWS.

Death of a Highly Respected Resident of
Blenheim—Election of Officers.

Chatham, April 11.—Detective McElroy held a grand inquest at the residence of the deceased, who was a resident of Blenheim, and a member of the Chatham Association, is being dangerously ill at his residence from hemorrhage.

Secretary Scullard, of the Chatham Association, has received notification of the space set apart by the managers of the International Exposition, to be held at Queensland, Australia, for Canadian exhibitors. He will bring the matter up at the next board meeting, and it is highly probable that the leading industries of this city will be represented at the great antipodal fair.

There died on Friday, at Blenheim, after a long and painful illness, extending over two years, Mr. Wm. Shillington, one of Blenheim's most highly respected citizens.

The Kent County Children's Aid Society held a general meeting last night, and elected the following officers: President, Dr. T. K. Holmes; Vice-Presidents, Mr. S. F. Gendler, Mr. G. J. O'Neill, Mr. J. H. Durean, Mr. John A. Walker, Mr. C. H. Henry Dugan; Secretary, Mr. Charles Boston; Hon. Secretaries, Mr. W. G. Richardson and Fred E. Gendler; Treasurer, Mrs. J. W. Shillington.

Judge Houston received yesterday morning a letter from Sir Oliver Mowat, proposing to visit the city, and to make certain arrangements to be pointed out by the judge. In England, under the criminal code, a man has to be proven guilty of an offense—assault, for example—and he may be sentenced. In Canada, however, the laws are different, when a man is accused of assault it is necessary for the complainant in the case first to prove that the man is guilty, and, secondly, to point out the place where the assault took place, when, where and where the blow was struck.

The death took place today of Mr. Robert Houston, of this city, the father of Judge Houston, of this city, at the family home in Harwich. Only a day or two since the deceased celebrated his 92nd anniversary of birth. For 63 years Mr. Houston had resided on the farm where his death took place. He was one of the wealthiest and most prominent of Ontario farmers, and was a recent of unblemished probity and public usefulness.

THE BALANCE OF POWER.

Germany, Russia and Austria the Non-Drubland—A Hint Between England, France and Italy.

By the time it is understood on reliable authority that another great shifting on the political chess board of Europe is imminent, the relations of the powers are being steadily growing worse, to the extent that they are being artificially bolstered up, and the admission of Italy to the Drubland League, and the proposed alliance between Germany, Russia and Austria. Some of the preliminary will be agreed upon between Emperor William and Emperor Francis Joseph, during the former's visit to Vienna, which is now definitely fixed for April 23. These days later, Emperor Francis Joseph will visit the Emperor at St. Petersburg. During these visits the preliminary negotiations for the understanding between the powers will be discussed, and will probably be ratified. Emperor William's visit to the Emperor after will serve the same purpose. The proposed agreement is directed mainly against the shifting policy of Great Britain on the Eastern question, and the maintenance of the European status quo.

THE FOREST CITY.

Action for Breach of Promise of Marriage—Sudden Death of a Man—Honey Asked for Street Improvements.

London, Ont., April 11.—An action for \$5,000 for alleged breach of promise of marriage is one of the latest cases set down for hearing at the next law term.

WINGS OF THE HIGH COURT.

Miss Matilda Carothers, of Westminster Township, and the defendant John James Harding, a retired farmer, living in this city. Miss Carothers is about 45 years of age, and Mr. Harding about 50. They were lovers more than 25 years ago, until the defendant afterwards married Mrs. Scott in this city. The latter, with her children, left him some time since, and procured a divorce in Detroit. It is charged that Harding then paid attention again to Miss Carothers, and proposed marriage, but she accepted only on condition that he would secure a Canadian divorce from his first wife, Mr. Harding made application for a divorce last year, but in the stress of public business the case was not come before the Senate. Since then he has married another woman; hence Miss Carothers' action for damages.

Mr. Wm. Milroy, an artist, dropped dead at his home yesterday from heart disease. He was 55 years of age, and unmarried. He had no relatives in this country, so far as known. He amassed considerable money as a baby carriage manufacturer, but devoted his latter years to art.

The Board of Works this year asked \$50,000 for street improvements, as against \$25,000 granted them last year. The board of works have to be greatly reduced to bring the tax rate below 21 mills.

It is rumored in railroad circles that the Great Train, which should be presently located in Hamilton, will be shortly removed to London. The company is at present negotiating for the purchase of three acres of land adjoining its car shops here.

Lake navigation is opening.

Kingsport, April 13.—James Dupont, of this city, aged 11 years, stole a ride on a G.R.R. freight train from Kingsport last evening. While jumping from between the cars near the junction on foot caught in the latter, and he was hurled against the car wheels, his leg being so badly crushed that it had to be amputated below the knee at the General Hospital.

On Saturday Fishery Inspector Sims of Napawan, 100 rods of gill nets and one set of hoop nets.

Rev. Wilbur F. Crafts, in his address in the City Hall yesterday afternoon, said that Toronto was the most progressive city in the Dominion and second on the continent in that respect to Chicago.

It is understood that the Deputy Adjutant-General's office in Kingston will be closed, and that Lieut. Col. Cotton will be transferred to another city. The Kingston district will be managed by D.A.O.'s office at Ottawa. There will be general changes of these offices throughout the Dominion, and at least three offices will be closed.

East Atlantic Service.

London, April 13.—Mr. Richard Dobbell, the Canadian Cabinet Minister without portfolio, who sailed for New York on the Cunard steamer Canadian yesterday, in an interview previous to his departure, said that a contract to build four fast ocean liners had been signed on condition that the Imperial Government would share in the cost of the proposed fast service between Canada and Great Britain. The negotiations for the subject are not yet concluded, but Mr. Dobbell hopes they will be shortly.

Lieutenant-Governor Chapleau has applied for and obtained leave of absence, and Sir Alexander Lacoste has been appointed Administrator.

A OF BIT LIFE.

A madman at night in the door
And sang as many times before
A man to daily told passed by
For the pleasure in his eye
His when he heard his merry song
He whistled as he went along.

A woman by the window wept
For she was in the shadowy night
But when upon her bearing fall
That time she saw and loved so well
The sound of her own voice was heard
And soon a song her lips uttered.

Her neighbor heard the tender strain
And softly joined his sweet refrain.
For long they sang a song so true
Its joyousness from door to door.

talk this way because you don't know what love is. Why, do you suppose for a moment that a more pleasant companionship would satisfy a man who loved you? He would be only half a man to accept what you suggested. As for me, I cannot go on with my friendship. I will not take a crust when I have asked for bread. You cannot help it, dear, and I must drop out of your life and live my own as best I may."

He dropped her hands, and, turning away, began to finger mechanically the little string that he had fastened to the flume began to flicker and finally went out.

"I beg your pardon. I have a match. I can light it again," he muttered hastily.

She watched him in silence as he struck a light and with a steady hand once more sent a soft glow over the room.

Her eyes traveled to his face, with the light shining full upon it. It was strangely still. She felt a peculiar little fluttering sensation in her throat.

"Jack," she whispered faintly.

He turned in a sudden passion, and catching both her hands drew her near to him—so near that his white face was almost touching hers.

She did not move, but a deep flush crept over his tanned cheeks, and his arms tightened convulsively. The force of his clasp crushed and hurt her. His face came nearer, nearer. Their heads mingled. Then, with a sharp exclamation, he loosened his hold—so quickly, so suddenly, that she almost fell backward.

"Forgive me," he muttered hoarsely. Don't speak to me. Good night. Say good night to your mother too."

He pulled aside the curtain with a rough hand and stepped into the hall. She could hear him getting into his coat. Her hands were still gripping the cane. From the force of habit she turned three up. Her eyes fell upon them as they lay under the lamplight.

A mistake—his was getting his cane now. A little door was opening—a heartache. She felt the cool night wind on her neck and turned slightly. Then there was the sound of the closing door echoing through the silent house—a mistake.

Her eyes clung to the cards. They seemed to mock her. She stretched her arms out blindly toward the door and tried to call his name, but her lips did not move.

Then in a frenzy of pain she scattered the cards on the table. Her eyes fell suddenly upon one. She snatched it recklessly from the pack, and rushing into the hall flung the door wide open.

"Jack! Jack!" she panted.

He was half way down the steps, and as he turned and looked toward her, she impulsively threw the card at his feet. He stooped wonderingly, and raising it held it up to the light.

"It was the five of hearts."

"Nell!" he cried, springing up the steps. His voice was hardly to be recognized.

A sudden flutter of nervousness swept over her, and with a throb of fear she slammed the door tight, but he knocked heavily against the panels.

"Nell, Nell, open! What do you mean?"

The door did not move.

"Sweetheart!"

Then there was a little uncertain turning of the lock and a crack of light appeared. Crashing through it, he caught the slight, trembling form in his quivering arms.

"Nell, Nell, what do you mean?"

"I mean," he words falling apologetically on her lips, "I mean that I want to give you my—guarantee."

The Windsor Castle Ghost.

Lieutenant Glyn, the young guardsman who recently encountered a "ghost" in Windsor castle, continues to insist that his eyes did not deceive him, and, judging from the details of his experience which he gravely gives to all inquirers, it is more than probable that he is quite right.

His assertion that he saw something "in the History of Deseronto" is second, that, glancing up from this far from exciting volume, he saw a woman in black, with black lace on her head and falling to her shoulders, who passed noiselessly across the room and disappeared in a corner that was out of his range of view.

This is all the more to the apparition, and the lieutenant—wisely enough—would have thought nothing more of the episode had not an attendant come in soon after to close the library. Lieutenant Glyn told her that there was a lady in the inner room. The servant navigated. There was no lady. And the chief librarian, who was then summoned, immediately declared that the young man's story was a repetition of Queen Victoria's.

Lieutenant Glyn was well wadded at that, and the story lies deep impressed everywhere in England, except a few circles. The den of the ghost took place in the inner room of the royal castle.

POISONED BLOOD.

Dreadful Death-Draught Comes from Diseased Kidneys.

When Uric Acid Flows in the Veins. Life looks out of Darkened Windows, expiring soon the Close of Day.

The fashionable Italian poison of the XVI century was a concoction. It was tried by the Medicis and all the first families of Rome, Genoa, and Naples. In five years historians tell us, over 600 wives used it to destroy their husbands.

In these modern days a more terrible and more prevalent poison is decimating the human family, and men and women are dying from an awful disease, the arsenic poisoning of the blood, caused by diseased kidneys. The poison which these useful organs should filter from the blood, is allowed to remain in the circulation and courses through the body, like

"Accu ed Hobson . . . whose effort Holds such an enmity with blood it must, And with a sudden vigor it doth poison and curd
Like eggs dropping into milk,
The thin and wheimsome blood,
To-day there is a remedy. Science has discovered a sure cure. All may have and apply it. It is sold under the name of **DODD'S KIDNEY PILLS.**"

It is a specific for all Kidney ailments. It cures by restoring the Kidneys, so that they properly perform their natural functions. It is the only known cure for Diabetes, and Bright's Disease. For sale by druggists everywhere, and at Dodd's Medicine Co., New York, Ont.

"Mr. Vernon Bromley, Trenton, Ont., says—'For a number of years have suffered from Diabetes, and the doctor, Dr. Scatelo. Was induced to procure a half dozen boxes of Dodd's Kidney Pills which I have used, and from being a cripple I am, a well man.'"

"Mr. Tose, Haverhill, N. B., says—'In spite of all other treatment I suffered for nearly a year with Stone of the bladder. I was relieved by passing the same, after using one box of Dodd's Kidney Pills, and completely cured by a few boxes.'"

"Mr. Wm. McNeil, St. Catharines, Ont., says—'Two boxes of Dodd's Kidney Pills have worked a wonderful cure in my case. I had been laid up with kidney trouble for months.'"

G. B. Cones, Orillia, Ont., says—"I most cheerfully testify that five boxes of Dodd's Kidney Pills have cured me of Diabetes, from which I suffered two years."

The village of Norwood suffered from a very destructive fire last week. The Roxborough block, Headen's livery, O'Rourke's implement shop, Tucker's bakery and grocery, the barracks, Pierce's bakery and the fire drill, M. Nicholl's wagon shop, etc., were burned. Loss \$100,000.

MELTED SNOW POWER.

Swiss Towns That Utilize the Mountain Streams.

Besides a considerable number of large water power installations Switzerland is full of small power plants, nearly every town in that land of mountains and waterfalls being well supplied with power from the "white coal," as the melting snow on the mountain sides has well been called. When there are no streams, many small ones are introduced and collected in reservoirs on the hillsides, and it is rare to find a place of any size which is not well lighted by the power of some mountain stream.

At Montreux the electric trolley gets its power in this way, and from the old Roman town of Vevey to the medieval castle of Chillon one may ride in a trolley car propelled by the power of an insignificant little stream which may or may not be noticed when climbing up the hillsides just above.

The capabilities of this general utilization of natural power are beginning to be understood everywhere, and, with the appreciation of the possibilities of the best methods of long distance transmission, the development of many mountain streams must surely come. There are innumerable streams, which, while very small, are yet very high, and these can with comparatively little difficulty be impounded and carried down many hundreds of feet, thus making up for the loss of volume by the great pressure readily obtained, and either by the use of electricity or compressed air, the power may be transmitted to many points of application with but little loss.—Canadian's Magazine.

Women Read Advertisements.

It is claimed, says the Philadelphia Press, that the women are the only readers of advertisements. In measure this is true, and necessarily so, for women are the larger purchasers for the household and spend more of the money that is earned by business, professional and working men.

Even in the larger transactions it will probably surprise dealers to learn how influential a voice women have. The purchase of a house is almost invariably determined by the women of the household, and in nine cases out of ten the information as to the situation and desirability of a purchase is gained from the newspapers.

And every furniture dealer, dry goods dealer, groceryman and keeper of any sort of a store knows that he must appeal to the women if he wishes to sell his goods. One of the largest elements in the success of one of the greatest merchants in the world today is the fact that he knows how to appeal attractively through the advertisement to the woman.—Furn. Estate.

A Bible Story.

A friend of the Listener saw a funny sight down in Maine. At a place there, which needn't be named, there lives a small boy named Jonathan Leaglow, who is a third or fourth cousin of the poet, and he is a great boy too. One day this friend of the Listener was driving past young Jonathan's house and saw the boy engaged at a little distance in sliding down hill on the slippery track on something that was not a sled. What could it be? Evidently the scrutiny of the gamely was observed by the boy, for he stopped his coasting and called out amiably, "I'm sliding down hill on the Bible." And it was the fact too. He had got the smooth, leather bound fable of all the legends, containing the generations of all the legends, and was coasting on it with magnificent success.—Boston Transcript.

SAFE BLOWERS AT WORK.

Anderson's Private Bank at Oakville Closed.

Oakville, April 27.—C. W. Anderson & Son's private bank was burglarized last night and about \$10,000 in gold and silver in Bank of Hamilton bills were taken. The burglars forced their entrance through the rear door, blew open the outer door of the vault, then blew open a double compartment safe where the cash was deposited, all of which was secured. The vault, a very solid one, was pretty well shattered. The valuable papers, documents, etc., are all right. Rev. Mr. Craig's key was covered and further investigation is being made. The night, but was afterwards found tied to a tree in New Toronto.

Smithville, April 27.—Burglars last night repeated their visit to this village and again effected an entrance to the post office, this time completely demolishing the safe door, which successfully resisted their first attempt. They got about one hundred dollars in money, no stamps or registered letters being taken. Some travelers who have been in town for a short time are not here this morning.

Ferry Line For Coal.

Detroit, Mich., April 27.—There is a belief among Toledo coal and railroad officials that the proposed Toledo-Toledo car ferry line will not run to Detroit, as the line is not yet completed. The real reason is that the Toledo Canadian ports, along the north shore of Lake Erie, there is reason to believe that the company is not securing dock privileges at Port Stanley and Port Dover, on the Canadian side, and perhaps at London and Huron. A ferry line between Toledo and Detroit cannot expect to compete successfully with the live lines of railroads between those points. On business between Toledo and Canadian ports there would not be such competition. Here they would have a shorter haul than the railroads, and would reach a territory in which the railroads have been better maintained than between Toledo and Detroit.

Obstructing the Railway Track.

Godrich, April 27.—Wm. Preston, Toronto, Thomas White, Montreal, and Frank Stewart, London, England, three men having the appearance of tramps, arrived in town by train today in charge of the detective of the C. P. R. They were charged with having placed obstructions on the track near Gorrie last Friday night, and were committed by the local Justice of the Peace at Gorrie.

Returning From Brazil.

New York, April 26.—On board the steamer Corcovado, which arrived last evening from Brazil, ports, were 13 penniless Canadian colonists, who are returning to their native country at the expense of the British Government. They went to Brazil in the hope of making their fortunes, but were sadly disappointed.

The Seventh Battalion.

London, April 27.—Capt. Kingmill, Adjutant-General, has been promoted to his resignation to Lieut.-Col. Lindsay. Last evening the bandmen turned in their uniforms and instruments. Hand-manned, the band is to be reformed by Brantford. It is possible the band may resume under a new leader.

A Fine Washing Fluid.

A washing fluid which has the advantage of being perfectly harmless is made as follows: Stir a tablespoonful of turpentine and 4 tablespoonfuls of ammonia in 3 gallons of water. Add a little more of dissolved soap. Put the clothes in this water, and after rubbing them a little let them soak. Lift them into a tub and pour the boiling mixture over them. Let them remain closely covered for three hours; then rinse them thoroughly and hang them out to dry.—Chicago News.

Curious Rumors.

Among the curious and suggestive rumors in a certain county in north Missouri are the following: Red, White, Blue, Green, Gray, Brown, and Black. There are also Kings, Queens, Ears, Dukes, Marquises and Lords. In antiquated nature to be found Wrens, Birds, Cows, Hawks and also Hawks in the air. Among quadrupeds are Wolves, Lambs, Lions, Bulls, Stags and Reddeer. At one time, in a county in western Kansas, there lived Rodwines, Kentons, Dryfords and Fancakes.—Chicago Tribune.

LARISSA HAS FALLEN

THE GREEK DEFENCE.
 TURKS HAVE AT LAST BROKEN

Government at Athens Will Continue the Fight—The Invasion of Epirus—Destruction of the Turkish Stores by the Greek Fleet.

The news of Saturday and yesterday showed the Turks to have gained their first decided success on the Greek front, hammering at the Greek center has at last succeeded, and after a week of unexpectedly severe fighting, the center has been broken, and the Greek army has been driven back and Larissa has fallen.

With Larissa is lost the Plains of Thessaly. The Greeks are now concentrating twenty miles south at Pharsalos—the site of the great battle of 338, when Cæsar defeated Pompey. It is stated that their new position, which is in advance of the steep Olympos range, must be held by the Greeks, and that the border given to Greece in 1881 left all the good military positions in the hands of Turkey.

Greek successes on the flanks of operations continue. The Macedonian advance towards Salonica seems to be meeting with much success, though late telegrams seem to indicate some interruption. The Albanian rising, which was probably a part of the Greek programme, seems to have occurred. Most significant, if correct, is the report that the Albanian battalions in the Turkish army have mutinied and joined the Greeks. These mutineers have for years formed an important part of the Turkish mercenary forces, and have hitherto proved faithful to their employers. They are now deserting.

Successes by the Greek warships are still announced. If the destruction of Turkish stores by them continues the Turkish navy, which has been paralyzed for want of provisions.

The Greeks, who have already exhibited intrepidity, appear now to be showing constancy, as many of the plotting and preparatory work for seceding is completed in the fall, thus minimizing the assistance of the Bulgarians. Consequently there is likely to be a number of days pointed at not finding work on the farm till harvest.

Scarcely any new general in Macedonia. Indeed in one or two districts wheat is reported above the ground.

The high water situation remains unchanged to date. The water is slowly at Morris and points between them and Winnipeg. The Government relief steamer reached Emerson, today. The steamer is now on its way to Winnipeg.

THE GREEKS RETREAT.

London, April 24.—Special despatches from Athens say that after a desperate battle at Mat the Greeks were outnumbered, retreated with heavy losses, abandoned their positions, and the Turkish Greek headquarters to Pharsalos, a small town on the right bank of the Pharsalos, and at the north foot of a spur of the Olympos range. Pharsalos is about twenty miles due south of Larissa.

A special despatch from Athens says it is reported that Edhem Pasha, the Turkish commander-in-chief, has succeeded to a wound which he received in the recent fighting with the Greeks in the Olympos range. The wound is said to be serious, and it is expected that he will be unable to take part in the fighting.

TURKISH SUPPLIES LOST.

The Athens correspondent of The Daily Chronicle says that the Crown Prince Constantine has succeeded to King George after the Turkish army's victory today owing to our success in Thessaly. We have destroyed the Turkish battery at Ligarlia. The Turks have retreated to the north of the Olympos range. The Turkish army is now in a state of confusion.

FEARFUL EXPLOSION

ON THE UNDERGROUND RAILWAY AT ALDERGATE.

A General Panic Followed the Week-End of the Injured Found to be in a Precarious Condition—A First-Class Coach Was Destroyed.

London, April 26.—A tremendous explosion occurred on the underground railway to-day as a train filled with men from the city was making its usual stop at Alder Gate station. The glass in the station was blown out and the platform was strewn with debris. Many persons were injured, and the station was left in a state of confusion.

A general panic ensued. When comparative quiet had been restored it was found that a first-class coach had been completely wrecked and that its occupants were lying around mangled and bleeding. Several of the injured were found to be in a precarious condition and were removed to hospitals.

A number of persons who were standing on the platform were also injured. Much of the wreckage was hurled across the station. The cause of the explosion is not known, but it is believed to have been the result of a collection of gas, which became ignited in some way.

Many persons, however, believe that the disaster was not due to accident, but was caused by the explosion of a bomb which had been placed in the station with the intention of wrecking it.

NOTES FROM WINNIPEG.

The Flood Situation at Emerson and Morris Remains About the Same.

Winnipeg, April 27.—Lord Aberdeen has written Governor Patterson, expressing appreciation of the great generosity of the people of Manitoba in respect to the Indian famine fund.

It appears that the success of the large numbers visiting Manitoba in the fall from Ontario has induced a number of young men from that province to come west this spring, but the conditions here are not such as to create a demand for help, as many of the plotting and preparatory work for seceding is completed in the fall, thus minimizing the assistance of the Bulgarians.

Consequently there is likely to be a number of days pointed at not finding work on the farm till harvest. Scarcely any new general in Macedonia. Indeed in one or two districts wheat is reported above the ground.

The high water situation remains unchanged to date. The water is slowly at Morris and points between them and Winnipeg. The Government relief steamer reached Emerson, today. The steamer is now on its way to Winnipeg.

THE NEW JUDGE.

Mr. Moss's Appointment to the Bench Acceptable to the Bar.

Toronto, April 26.—Mr. Charles Moss, Q.C., was warmly congratulated by many of his friends yesterday upon his appointment to the Court of Appeals. It is said that the appointment is a dignified and courteous manner will make a good Judge. Mr. Moss will be an excellent one, and that is, no doubt, the opinion of the bar.

It is a coincidence that the new Judge of the Court of Appeals, Mr. Charles Moss, Q.C., one of the greatest lawyers of this Province, first took his seat on the bench as the Chief Justice of the Court of Appeals, from whom he has been raised to the position of Chief Justice.

Mr. Moss is 57 years of age. He was called to the bar in 1869, and was a law lecturer and examiner from 1872 to 1879. He was elected a member of the Law Society in November, 1880, and made a Q.C. in July, 1881. He has been a judge for many years.

JAPANESE CHRYSANTHEMUMS.

[The Japanese have a legend to the effect that the dewy juices in the petals of the chrysanthemum are the elixir of life. The following translation from a native poet, Saemur, is in the spirit of this legend.]

O bloom of chrysanthemum,
Faded of hue,
A fountain of vigour
And sweetness untold
The dewy juice spiced
With life in its flame,
And no such bartering
In mortal balm.

But lo, there hath opened
The petals of thy bloom,
For God's love hath blossomed,
And life is its dew.

And its petals shall shine
More brightly than the sun,
With their fabulous treasure of life
In glowing veins.

For faithful store,
And its dewdrops shall glow,
And its fragrance shall grow,
From more unto more
While the years come and go.

A LOVE CHASE.

"Tomorrow on the Paris!" cried Carter, dropping his cane on the pavement with a resounding thud.

"Yes, tomorrow," said I, gazing with astonishment on my friend, for my commonplace gossip had apparently perturbed him greatly. "The whole family are going to sail, and they will be away for a year. It's very sudden."

"Sudden? I should call it so!" he exclaimed. He looked thoughtfully up the avenue for a moment, then stammered, "Miss Margaret too?"

"Yes."

Thereupon he hailed a passing cab, and before I could get another word with him dived into the vehicle and quickly disappeared with it.

Carter is not a bad fellow. He is exceedingly kind. This is a most unusual characteristic for a young man who is spending a fortune gathered by another's talents, but to so great a degree does he possess it that it seemed to him impossible that Margaret Walcott should seek upon him with other than indifference or even repugnance.

"Why, Vandergast," he said to me one Sunday afternoon, when he had dropped in on his way to her house, "it is ridiculous to think that a bright girl like that could care for a fellow like me—a fellow who doesn't know anything, who has not a striking point except money—when there are so many men with brains about."

But, acting on his advice, he actually started to propose that very afternoon.

"Miss Walcott," he began as they sat by the fireplace in the drawing room talking commonplaces, "I'm in love."

"Really? How interesting!" cried the girl, calmly leaning back in her chair and gazing at him, awaiting the rest of his revelations.

There was a long silence, during which Carter carefully drew his left leg over his right hand. Having recovered his courage, he continued his story.

"I know who it's with. Do you know who it's with?"

"Yourself," she cried, clapping her hands as though she had made a wonderful discovery.

"Oh, dear, no! Never!" he stammered. "Positively not. You really don't think so, do you?"

"I was just guessing," she replied soothingly.

"Guess again," he said quickly.

"With Miss Vandergast," ventured Miss Walcott after she had given the matter due consideration, gazing meditatively into the fire, thus unconsciously showing to Carter the fine profile of her face, which glowed in the red light of the coals.

"Don't accuse me of it," cried my friend in a deprecating tone that was most uncomplimentary to his charming cousin. "Guess nearer home."

And the foolish fellow kept her guessing the name of every girl in town but the right one until the maid brought in Derby's card.

Was it a wonder that, knowing these facts, I smiled when I saw the day after in a cab after I had imparted to him the news? It was sufficient to send him up the steps of the Walcott house in three bounds when his cab drew up there. Miss Walcott was out. At least, he ventured to inquire of the maid.

"Yes," here arose a predicament. He knew of no less than five that afternoon. But he had heard that she was to be at the Trumpions' ball that night, and, chancing her head to be in the building, he felt that very afternoon or following her over Europe.

So he started in at Mrs. J. Anderson Oglesby's and most pertinently paid her respects to that energetic woman and her extremely plain daughter. Then he searched every corner of the crowded drawing rooms and even took a surreptitious glance into the butler's pantry.

"That Miss Walcott yesterday?" he said to the young girl who was pouring tea, indicating a mass of black hair that was conspicuous in the crush.

"Why, no," she cried, gazing at him in astonishment. "She has light hair. And, besides, the left hairs only. I should think!"

The rest of the remark was lost on my friend, who dashed from the room and the house and was off in his cab mere.

He searched in vain for her at the Partridges', the Joneses' and the Van Blunders' and at length reached the home of my aunt, who was on that afternoon performing the arduous physical labor of introducing her daughter to society. Great, indeed, was my cousin's astonishment when Benjamin Carter was announced for the knew that he abhorred tea. But greater still was her amazement when he let fall the hand he held out to him, turned suddenly, craned his neck so as to see over the heads of the crowd about the door and dashed madly from the room.

Carter had seen her at last, but it was only a glimpse as the door closed upon her. He rubbed up the stairs to the dressing room and bounded down again to his cab.

"Which way did Miss Walcott's car-

THIEVES IN SOCIETY.

STORIES TOLD BY NONBELIEVERS IN KLEPTOMANIA.

"Up Fifth avenue, sir," replied that astonished man.

"After this!" exclaimed Carter, jumping in and announcing his presence.

The bewildered John swung his vehicle around the corner and dashed up the avenue, crowded with carriages. Eight blocks, however, told on the beast, and the driver found it expedient to draw up at the curb and hold colloquy with his fare.

"So you have lost it, oh?" cried Carter angrily.

"Yes, sir," replied the cabby. He tipped his hat most respectfully in the hope of mollifying the angry man.

Carter threw himself bodily back in the seat and for a time was silent. It was already dark. The pavement was filled with people hurrying home after the day's work. He had visited every place where he could have hoped to find her, yet lost her. Of a sudden he leaned through the window and to the cabby said, "Do you see any awnings about here?"

The man pierced the gloom with his eyes and at length pointed meaningfully with his whip down a side street to a residence in front of which a score of carriages were gathered and an awning stretched from the curb to the door.

"At it!" cried the fare.

Carter quickly ascended the steps of the strange house, boldly passed the servants in the hall, left his coat and hat in the wardrobe and returned to the drawing room.

"Carter, Carter, Carter!" muttered the over-dressed but kindly looking woman who greeted him there, tapping him on the arm with her fan and giving him a hearty shake of the hand. "I'm delighted to see you, Mr. Carter."

"It was awfully kind of you to come," said the slender young girl at her side as he formally greeted her. And when he passed on she whispered to her mother: "I'm sure I didn't send him cards. Why, it's Benjamin Carter!"

My friend forced his way through a crowd of people he did not know and muttered impatiently at himself for wasting precious time at such a place. She would never be here. He would slip out at once. What! Could he believe his eyes? Yonder she sat in a cozy corner of the dining room, a tall young man bending over her.

"Why, Mr. Carter!" she cried as he rushed breathlessly up to her.

"How in the world did you happen to come here?" he exclaimed.

"So did I," the young man moved away, and she whispered apologetically: "Close business friends of my father's. But pray what brought you here?"

"I followed you."

"Shadowed me! That was very polite of you."

"But I wanted you to guess some more," he stammered.

"Oh!" The girl blushed deeply and fixed her eyes on the carpet.
